Características ampliadas

Manual lift truck with rubber wheels

Manual pallet truck up to 2,200Kg capacity.

Forks measures for European pallet, 1,150x520mm.

Steering rudder equipped with return spring.

200 mm rudder wheel made of elastic rubber and double polyurethane rollers.

Equipped with a safety pump that interrupts when the load exceeds its maximum. Very easy to maneuver even in tight spaces.

Arrangement of self-lubricating bearings to prevent damage and improve maintenance by ensuring a longer product life.

Equipped with valve that allows a fast descent without load, and a controlled descent with load.

Made in EU, with CE certificate.

In case of purchasing an entire pallet of pallet trucks (6 units), these will be delivered disassembled.
