Wardrobe for toxic, dangerous and flammable products

Robust two-door construction safety cabinet with integrated door opening handle, continuous hinges throughout the door. And equipped with 3-point lock with two keys.

Built with double steel wall with 38 mm insulation, painted in epoxy yellow. Height adjustable shelves and bottom tray with 55 mm height. Grounding.

Its external dimensions are 1650 x 790 x 790mm and the internal dimensions (height x length x width) 1560 x 700 x 710mm. The total capacity is 228 liters, having 2 shelves that support a maximum load of 80kg.

For greater comfort, it has an adjustable system on the sides, and its leveling feet are adjustable to achieve balance on uneven surfaces. Grounding incorporated for antistatic. Ventilation on the sides of 50mm.

Finished with lead-free powder paint inside and outside, chemically resistant. Non-forced ventilation with flame arrestor, 1 high and 1 low (diagonally opposite).

Directives and standards in accordance with NFPA (National Fire Protection Association), OSHA (Occupational Safety and Health Administration) UL (Underwriters Laboratories) and FM (Factory Mutual international).
