Características ampliadas

350 kg stainless steel manual scissor lift platform

It will optimize the tasks, facilitating the accomplishment of tasks and gaining time. The lifting is carried out easily by scissors through the pedal.

The lifting table has a safe and continuous descent by means of a lever. It has two fixed wheels and two swiveling polyurethane wheels, they are adjustable wheels protected and without brake.

Thanks to the stainless lifting table we can work at a comfortable height, indicated by all kinds of activities: handling, translation, repair, packaging, control of parts or products, transportation of parts in manufacturing lines, etc.

It is stainless, except for the scissors and the piston, these being galvanized.

CE Marking
