

## Electric Sweeper Driver on Foot

ref. C201110030

Electric sweeper of accompanying conductor with battery of 12V and 80Ah, autonomy of 4h and theoretical performance of more than 4,000 square meters per hour.

Integra sweep with vacuum suction and control of operations in a single button for the comfort of the operator. Adjustable brushes and folding handle for proper storage after use.

**1 899,00 € tax excluded**

### Características principales

Dimensiones (mm)	1000x785x400
Depósito de agua limpia / sucia (l)	22
Diámetro cepillo (mm)	785
Ancho de trabajo (mm)	1000
Capacidad de trabajo teórico (m <sup>2</sup> /h)	4000
Peso (kg)	26

### Características ampliadas

Simple electric machine, ideal for sweeping all types of floors comfortably; supermarkets, shops, stores, etc. It has a 12V and 8 Ah battery, with a range of 4h and a performance of more than 4,000 square meters per hour. Integra sweeps with vacuum suction and one-button operation control for operator comfort. The brushes are adjustable without tools, so it is much easier for the operator. The handle is foldable for proper storage after use. The sweeper has perfect control over the swept dirt by storing it in its 22L tank.

Efficiency and simplicity of use make this sweeper the ideal tool for large surfaces, medium-sized establishments, schools, etc.
