

Manual Sweeper Walking Driver

ref. C201110031

Compact manual sweeper for tight spaces. Folding handle for storage. Performance up to 3680 square meters / h.

Simple operation, thanks to the operator's thrust on foot, fuel saving capacity, batteries and emissions. Proven efficiency compared to a manual broom; 4 and 6 times faster. Made of resistant plastics: corrosion and wear.

199,00 € tax excluded

Características principales

Descripción	barredora manual conductor a pie
Dimensiones (mm)	1000x785x400

Diámetro (mm)	210
Diámetro cepillo (mm)	785
Ancho de trabajo (mm)	920
Capacidad de trabajo teórico (m ² /h)	3.680
Peso (kg)	26

Características ampliadas

Compact manual sweeper for tight spaces. Folding handle for proper storage after use. Great performance of 3680 square meters / h.

Simple operation, thanks to its traction of the operator's thrust on foot, with the consequent saving of fuels, batteries and emissions. Proven efficiency with respect to a manual broom: 4 and 6 times faster. Made of corrosion and wear resistant plastics.

Adjustable handle for greater operator comfort and ergonomics.

The main brush is driven by two wheels at the same time, which offers a cleaning and sweeping effectiveness achieved even in narrow corners.

The handling of the brush is very simple and ergonomic, ideal for emptying after use.

The side brushes and the center can be adapted to different types of dirt. So, if the brush is worn, it can be cleaned by adjusting the gear, greatly extending the life of the brush.
