

Sweeper Driver Sitting 1950mm

ref. C201110033

Sitting sweeper ideal for sweeping and vacuuming dirt on large surfaces. Great performance; 12,000 square meters / h, total operator comfort and ergonomics, necessary to perform tasks efficiently.

Autonomy of 6 to 8h of uninterrupted work and a sweeping width of 1950mm.

9 490,00 € tax excluded

Características principales

Dimensiones (mm)	1000x785x400
Depósito de agua limpia / sucia (l)	40
Potencia máxima (W)	2000
Diámetro cepillo (mm)	785
Ancho de trabajo (mm)	920
Capacidad de trabajo teórico (m ² /h)	12.000
Peso (kg)	26

Características ampliadas

Sweeper for sitting driver for large surfaces. Large dimension up to 12,000 square meters / h, offers the operator all the comfort and ergonomics necessary to perform the tasks efficiently. Autonomy of 6 to 8h of uninterrupted work and a sweeping width up to 1950mm.

The control panel is illuminated to offer all the security and manageability to the operator in low lighting conditions.

The brush can work independently and the rotation speed can be adjusted to optimize operation according to the conditions. It includes a seat with shock absorption that offers great comfort to the operator reducing their fatigue.

The machine is constituted in a unique structure that reduces working noise. It includes an efficient LED headlamp (powerful light and low consumption).

The tires offer optimum resistance with great durability and low sound emission.

It has dirt control to avoid losses with a great suction power that offers a unique sweep.

The core and components of the sweeper are manufactured by

manufactures recognized for their quality (efficiency and long service life).

Maintenance free battery availability.

Spare parts available, consult us.
