

Electric Scrubber Driving Sitting 800mm

ref. C201110037

Machine to scrub and vacuum battery driver sitting. Ideal for large surfaces.

Compact and ergonomic design, it offers great reliability and performance, thanks to its 4x6V battery and its scrubbing width in the 800mm brush.

10 990,00 € tax excluded

Características principales

Peso (kg)	26
Dimensiones (mm)	1000x785x400
Depósito de agua limpia / sucia (l)	70
Potencia máxima (W)	500
Diámetro cepillo (mm)	785
Ancho de trabajo (mm)	850
Capacidad de trabajo teórico (m ² /h)	4300

Características ampliadas

Industrial scrubber vacuum cleaner sitting with suction for large surfaces. Great efficiency thanks to its theoretical yield of 5,500m² / h.

Compact and ergonomic design, it offers great reliability and performance thanks to its 4x6V battery and its scrubbing width in the 800mm brush. The fully functional and ergonomic steering wheel has all the information regarding battery, speed, tank capacity, etc. It offers comfortable and efficient machine handling.

It has an automatic display of the battery level on the control panel.

The brush works at the rhythm of the engine, after raising the scrub lip, the suction motor is closed to prevent dripping from inside the tube.

This machine has a gravity induction system and an automatic deceleration to prevent damage due to improper handling by the operator.

When reversing, the flashing emergency light offers better security, as well as its front LED light, which guarantees night safety.

The brush cover and squeegee are molded by an alloy mold to

ensure the stability of the entire machine.

It has a visible water level screen and easy to observe the volume of water in the clean water tank.

The dirty water tank is equipped with a transparent cover to observe the volume of water in it.

Once the brush stops moving, the water does not flow, which lengthens the durability of the components and avoids the need to manually close the water valve.

The handle has an ergonomic and current design.

Spare parts available, consult us.

FEATURES

DRIVER SITTING

THEORETICAL PERFORMANCE m² / h 5600

SCREEN WIDTH (rear lip) mm 1050

SIDE BRUSH DIAMETER mm 800
