Quality forks for forklift trucks

The purchase is made by the set of forks. Please, indicate the FEM and the measurements of your forks.

Frequently asked questions What FEM does my truck have?

It is the type of hook of your machine, and will depend on its load capacity. This information can be seen on the identification plate of the forklift truck.

In the following diagram, taking into account the "P" and "Q" measurements, you can see to which FEM your forks correspond.
