Características ampliadas

Fully electric, ergonomic and intuitive hand truck to distribute and handle loads up to 450kg. It is ideal for distributing beer kegs, oxygen cylinders, for shops, tables, chairs, poles, gas cylinders, small trailers (with its appropriate accessory), tiles, cement bags, etc.

Furthermore, due to its compact size and light weight, it can be transported in the truck for deliveries.

It has an ergonomic throttle control for forward / reverse, a folding wheel that can be picked up when not in use and that allows up to 4 different working angles with the truck. And also, it has a security system to prevent dangerous situations, even if the brakes are deactivated.

The operator will work in complete safety and comfort.
