Características ampliadas

Elevator of loads with manual translation, it is ideal to lift loads inside confined spaces. It can lift loads such as air conditioners, small furniture, boxes, etc.

Its load capacity is 125kg maximum and it lifts up to 3500mm in height.

The folding design of the base that is "umbrella" type, together with its small size and easy handling through a crank, make our load lift the ideal complement for air conditioning installers, furniture or appliance distributors, etc. ... It is ideal for indoor and outdoor use.

The main advantages are:

- Time savings by lifting loads, increasing productivity.
- Spanish manufacture and availability of accessories and spare parts.
- Maximum stability, security and resistance.
- Reduced dimensions, maximum maneuverability and easy loading in vehicles.
- Quick and easy assembly without tools. There are no loose parts.
- Manipulable by a single operator.
- For private and professional use, both indoors and outdoors.

- Self-braking winch that prevents recoil and paralyzes the load at the desired height.
- Manufactured with the most advanced technologies, passing rigorous quality controls and complying with German regulations and European CE directives.
