

Stacker 600kg a 800mm

ref. M104040001

Self-supporting stacker with 600Kg load capacity and 800 mm lift. Specially designed to carry in vans and small trucks.

It develops lifting, transport, stacking and self-loading work. It is an ideal solution against the installation of fixed loading ramps.

CE marking

Available in several models.

4 995,00 € tax excluded

Características principales

Peso (kg)	225
Ancho total (mm)	770
Descripción	Autoportante
Capacidad (kg)	600
Elevación uñas (mm)	800
Horquillas (mm)	1.140 x 540
Motor (W)	12 V - 700W
Capacidad de trabajo (h)	3 horas en funcionamiento
Altura con mástil plegado (mm)	1.200

Características ampliadas

Manual traction and electro-hydraulic lifting by means of a rudder.

Forks made of 3 mm sheet steel.

Pivoting polyurethane wheel for perfect movement and ease of use inside vehicles.

Electric motor 12V - 700 W, battery 12V - 75 Ah

12V - 7Ah charger integrated in the machine.

SECURITY

It includes safety systems such as a load-limiting valve that does not allow the truck to lift more weight than specified by the manufacturer.

Non-return valve that prevents involuntary movements due to lack of fluid

20 A fuse prevents overload in the consumption of the lift circuit

Fuse 125 A prevents overload in motor circuit consumption
