**199,00 € tax excluded**

### Características principales

### Características ampliadas

Ask us to indicate the characteristics we need to know to budget the ladder:

- With / without safety arch.
- Number of steps.
- Optional: 4 wheel kit.
- Coating of the steps.

Technical characteristics:

-Allows up and down with both hands loaded

- Suitable for work in warehouses and shops, maintenance, assembly

-Has a tool tray

-Has large 36 x 23 cm steps, coated with black PVC or striated aluminum

-Round and polished edges that prevent cutting injuries

-Load capacity per step: 150 Kg

-Easy opening and folding school management

- Immediate spare parts service

-Great stability due to stringers that open down pyramidal

-With TUV approval certificate, according to European standard  
DIN EN 14183

#### MEASUREMENT TABLE

COATINGS OF THE LEGS  
BLACK PVC

STRIED ALUMINUM  
OPTIONAL: KIT OF 4 ROTATING WHEELS AND SUSPENSION OF  
SPRINGS

As an option, it has a 4-wheel swivel kit for greater comfort.

#### CHARACTERISTICS:

- Without load, the wheel springs keep the ladder up and can easily be moved.
- With load the springs are loosened and the ladder is stable on its non-slip feet.
- Easy and fast assembly.
- With the wheels mounted you can still fold the ladder.
- Included: 2 front and 2 rear wheels.
